Certifications

AI Engineer for Developers Associate
Generative AI with Diffusion Models
Introduction to Transformer-Based Natural Language Processing
Microsoft Certified: Fabric Data Engineer Associate
AI Engineer for Data Scientists Associate

Chaima Chtourou

Data Engineer @OliveSoft
Tunisie

Expérience

OliveSoft
Data Engineer
avril 2026 - Present (6 mois)

OliveSoft
Artificial Intelligence Engineering Intern
février 2025 - septembre 2025 (8 mois)

Project: Media generation models for digital marketing

- Developed advanced image and video generation pipelines using Diffusion models, featuring LoRA fine-tuning for product-specific customization.
- Engineered controlled generation workflows and editing tools, including visual reference guidance, image stylization, high-resolution upscaling, text-guided inpainting/outpainting, and automated object removal.
- Orchestrated an automated end-to-end video production system integrating multi-modal generation, AI-driven audio/speech synthesis, and automated video editing.
- Integrated LLM-based prompt engineering and optimized inference with bitsandbytes quantization to improve generation quality and reduce memory usage.
- Architected and deployed production-ready APIs using FastAPI, fully containerized with Docker for scalable AI solutions.

Digital Research Center of Sfax
Artificial Intelligence Engineering Intern
juin 2024 - août 2024 (3 mois)
Sfax, Tunisia

Project : Realistic High Resolution Satellite Images Generation via Generative AI

- Developed Transformer-based and Diffusion models to generate high-resolution satellite imagery for olive cultivation.
- Used the DART model to simulate datasets with varying spatial, spectral, and temporal resolutions.
- Performed comparative benchmarking to optimize model efficiency, achieving an error rate below 5%.

Infosquare Tunisie
Summer Intern
juin 2023 - juillet 2023 (2 mois)
Sfax, Tunisia

Project: Enhancing Text Mining Capabilities using Composite AI-Rules in OpenText Magellan.
- Designed Composite AI-Rules in OpenText Magellan to automate data extraction from contracts, replacing manual processes.
- Developed advanced text mining logic to identify complex patterns and improve extraction accuracy in unstructured documents.

Formation

École Nationale d'Electronique et des Télécommunications de Sfax (ENET'Com)
Diplôme d'ingénieur, Ingénierie des Données et Systèmes Décisionnels · (septembre 2022 - juin 2025)

IPEIS - Institut Préparatoire aux Études d'Ingénieur de Sfax
· (septembre 2020 - juin 2022)
