Principales compétences

Semantic Kernel

DeepSeek

TensorFlow

Certifications

Improving Deep Neural Networks: Hyperparameter Tuning, Regularization and Optimization

Data Science

python for data science

DevNet Associate

Cisco Certified Network Associate (CCNA)

Ahmed Chtourou

Ai / Data Engineer | Microsoft Data Scientist Associate Certified | GCP Certified

Tunisie

Expérience

OliveSoft

Data Engineer

• Designed n8n workflows extracting, cleaning and orchestrating data from Cegid ORLI ERP into Google Cloud

Storage.

• Built a multi-layer BigQuery architecture (staging, data hub, data warehouse) for scalable, governed data

management.

• Designed a semantic data model enabling data sharing across business domains, feeding Power BI KPI dashboards.

Tools: Python, n8n, BigQuery, Cloud Storage, SQL, IAM, ETL/ELT, data modeling, Power BI, Git.

OliveSoft

Data Engineer

• Automated Cegid ORLI standard data exports (AR902, CD902, PR092, SP902) and integrated them into the GCP

data platform through Cloud Run workflows and ORLI Web Services.

• Structured staging, data hub and data warehouse layers in BigQuery for cleansing, transformation and analytical

consumption.

• Designed the GCP data model and Power BI semantic model, and built the retail reporting dashboards on top of

them.

Tools: Cegid ORLI, ORLI Web Services, Python, Cloud Run, BigQuery, SQL, Power BI, ETL/ELT, data modeling, Git.

OliveSoft
Artificial Intelligence Engineer

• Built models predicting social media post popularity and key KPIs before publication, increasing marketing

effectiveness.
• Led R&D on multimodal data analysis for marketing insights, improving decision-making by 25%; built an

LLM-based auto-labeling agent that reduced manual labeling by 30%.
• Built a scalable pipeline processing 10K+ posts/week with GCS ingestion and BigQuery transformations.

• Deployed training pipelines on Azure ML with MLflow tracking and served models through an automated REST API.

Tools: Azure ML Studio, GCP (BigQuery, GCS), Scaleway, LLMs (Qwen, GPT, DeepSeek), HuggingFace, PyTorch, LangChain,
LangGraph, MLflow, GitHub Actions, Docker, Git, Jira, Confluence.

OliveSoft
Data Scientist

• Delivered demand and revenue forecasts on Vertex AI, improving forecast accuracy by 20% and reducing stockouts

and lost sales.

• Built product quantity forecasting models, cutting overstock by 15% and optimizing inventory planning.
• Designed reliability factors scoring the confidence of each prediction, supporting strategic production planning.
• Reduced model training time by 35% with Optuna hyperparameter optimization; automated scheduled retraining

and CI/CD with Cloud Build, reducing operational bottlenecks by 30%.

Tools: GCP (Vertex AI, BigQuery, Cloud Run, Cloud Build triggers, Cloud Workflows), Docker, Optuna, Prophet, SARIMAX, Python, Git,
Jira, Confluence.

OliveSoft
AI Engineer
février 2024 - Present (2 ans 8 mois)

IHEC Sfax Institut des Hautes Études Commerciales de Sfax
Deep Learning Instructor | AI Educator
septembre 2024 - février 2025 (6 mois)

ADN EXPERTISE
Data Engineering internship
juillet 2023 - septembre 2023 (3 mois)

Led the development of a data pipeline to extract, transform, and load data from cloud-based sources, streamlining data management and enabling the creation of KPIs and interactive dashboards for improved decision-making.

ip-label group
AI Internship
juin 2023 - août 2023 (3 mois)
Tunis, Tunisia

Developed an AI chatbot for assisting with intellectual property and trademark inquiries, offering efficient document retrieval and a user-friendly interface for natural language interaction.

IEEE
ViceChair EMBS IEEE

janvier 2022 - février 2023 (1 an 2 mois)

Djagora Maison Digitale
Deep Learning intern
juin 2022 - août 2022 (3 mois)

Interning on a web application project for AI-based solutions to plant disease detection. I enhance accuracy through data optimization and advanced modeling techniques, contributing to sustainable agriculture.

École Nationale d'Electronique et des Télécommunications de Sfax (ENET'Com)
Étudiant ingénieur en génie télécommunication
septembre 2021 - mars 2022 (7 mois)
Tunisie

GO Data Science
Student Ambassador
février 2022 - février 2022 (1 mois)

Formation

École Nationale d'Electronique et des Télécommunications de Sfax (ENET'Com)
Diplôme d'ingénieur, Ingénierie des télécommunications · (septembre 2021 - juin 2024)

IPEIS - Institut Préparatoire aux Études d'Ingénieur de Sfax
Classes préparatoires , physique chimie · (septembre 2019 - juillet 2021)

National School Of Design
Bachelor of Computer Science

PREPARATORIA NO 5
Preparatory Foundation Degree

National Engineering School of Sfax (ENIS)
Doctor of Philosophy
